

# Weekly Report 2

Aki Kankaanpää

**Hours spent this week:** 3hrs

**What have you done this week?**

Read more sources, read feedback and wrote rock-paper-scissors base code.

**How has the project progressed?**

I got the core game set up, and a random number generator for now.

**What did you learn this week / today?**

I learned how to improve the project to suit the requirements, and now have a clear goal for the future.

**What has been unclear or problematic?**

Nothing unclear at the moment.

Decided to write the code in python, as I found it easier.

**What next?**

Starting work on the actual Markov Chain.
